STYLE, STRENGTH & DURABILITY

— WGD Steel Doors —

STEEL DOORS

When it comes to selecting the perfect door for your property, style and longevity are key considerations. And, if you're seeking a classic design that will stand the test of time, look no further than the Wessx steel door range.

Boasting both ribbed and panelled designs, these doors exude a quiet elegance that seamlessly blends with any environment, all while adding a lasting prestige to your property. What's more, their durable construction ensures that they never age, making them a smart and stylish investment.

Crafted from galvanised steel and coated with a high-quality polyester powder, these doors are designed to withstand even the toughest weather conditions and resist corrosion. So, whether you're facing harsh winter snows or scorching summer sun, you can rest easy knowing that your door will remain beautiful for years to come.

Woodgrain colours

Looking to enhance the aesthetic appeal of your home? Then choosing the right colour for your garage door can make a significant difference. A woodgrain finish is a popular option that can transform the exterior of your property and give it a natural, warm look. With a range of woodgrain colours available, you can choose the one that

complements the colour scheme of your home and adds a touch of elegance.

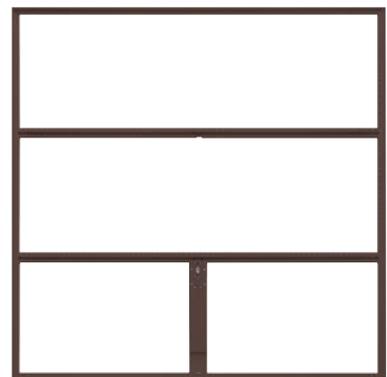

Our woodgrain finish steel doors are made with durable and long-lasting materials, ensuring that they not only look great but also protect your garage from harsh weather conditions.

Rethink Your Space

**Easy Access to Your Garage
with a Steel Personnel Door**

If you're tired of going through your main garage door every time you need to access your garage, a personnel door could be the perfect solution for you.

These single steel doors offer a convenient and easy way to enter and exit your garage without having to open the main door.

Available in three options - Vertical, Georgian, and Vertical Large Rib - our side doors are designed to meet your needs and match your style.

Find the perfect match for your garage door

With our personnel doors, you can easily access your garage without the hassle of opening and closing the main door every time. Whether you need to grab your bike, store your tools or work on a project, our side doors provide a practical and efficient solution.

Made with high-quality steel, our doors are sturdy and durable, ensuring long-lasting performance and security for your garage.

Our steel garage doors are made with durable and long-lasting materials, ensuring that they not only look great but also protect your garage from harsh weather conditions.

All our steel door designs come in Traffic white (RAL 9016) as standard, except for the open-for-infill frame which comes in Terra brown (RAL 8028).

We take pride in offering steel garage doors with hand-picked colours that suit all kinds of properties and different homeowners' personal style.

GLAZING OPTIONS

More Than Just a Design Element

Georgian Plain

Georgian Diamond

Georgian Crossed

Crystal

Black

* All windows come with crystal panes. Frames come white as standard with colour options available. ** The simulated 'leaded light' designs can be combined with a clear or stippled opaque pane. Panes are made of tough, durable perspex.

Adding glazing to your garage door isn't just about aesthetics. It also allows natural light to flood your garage, creating a bright and welcoming atmosphere.

When selecting glazing for your garage door, it's important to consider the style of your door. Different types of glazing complement different styles of garage doors, so it's worth exploring your options with your Wessex installer.

SIDE HINGED

Steel Garage Doors

Side hinged doors open as per a normal pedestrian door with two door leaves connected by hinges at the side to the main door frame. Customers can choose a 50/50 split with both doors of equal size, or an offset configuration, with one smaller personnel door.

CHOOSE THE STRENGTH AND RESILIENCE

— WGD GRP Doors —

COMPOSITE GRP DOORS:

Strong, durable and low maintenance

Looking for a garage door that is strong, durable, and requires minimal maintenance? Look no further than GRP (Glass Reinforced Polyester) garage doors! Made from fiberglass, these doors are renowned for their strength and resilience, making them the perfect choice for those seeking a long-lasting, high-quality garage door.

Despite everyday use and exposure to the elements, GRP garage doors are exceptionally durable and can withstand rust, splitting, and rot. They are also able to cope with minor bumps and knocks without compromising their appearance or security.

With no staining or protective finishes required, our GRP garage doors are incredibly low maintenance, making them a convenient choice for any homeowner. And with a wide variety of colours and finishes available, from traditional white gloss to realistic wood grain, you're sure to find the perfect option for your home.

All of our GRP garage doors can be fitted with automation mechanisms, allowing for remote opening and increased security for your property. We offer a variety of different mechanisms, including up and over and side hinged, to suit your needs.

COMPOSITE GRP SIDE HINGED DOORS

The WGD range of traditional GRP side hinged garage doors combine all the advantages and practicality of GRP with the convenience of a tried and tested form of operation.

Our side hinged garage doors have GRP panels built onto individual steel frames preventing any distortion and have an additional flow coat applied to the back of every door for improved aesthetic appearance.

As standard, all side hinged garage doors include: heavy duty steel hinges, a pair of solid garage door stays, centre style for maximum security, weather seals, Euro dead locking latch, black lever handles inside and out and are supplied pre-fitted with frames for ease of installation.

Side hinged garage doors are manufactured with equal sized leaves and open outwards to maximise available clear space inside the garage. As standard the right hand leaf (viewed externally) opens first - left hand leaf opening is available on request.

A photograph of a modern brick house at dusk. The house features a dark brick exterior and a large window with a view into a brightly lit interior. A white sectional garage door is visible on the right side of the image. In the foreground, the front of a white car is partially visible. The scene is illuminated by warm interior lights and a small outdoor light fixture, creating a cozy and elegant atmosphere.

INTRODUCING THE TIMELESS ELEGANCE

— WGD Sectional Doors —

SECTIONAL DOORS:

We've got you covered

Need a garage door that maximises space, provides superior insulation, and ensures top-notch safety for you and your loved ones? Then choose a WGD sectional garage door! These doors open vertically and rest under the ceiling, offering maximum space both in front of and inside the garage.

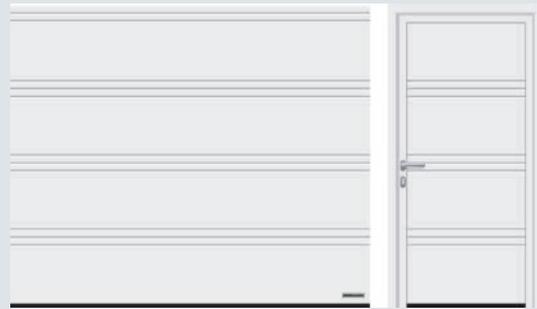

With up to 14cm more passage width than traditional up-and-over doors, sectional garage doors can be installed in any garage opening. And with permanently flexible and weatherproof seals applied on all four sides, they are perfectly sealed, keeping your garage dry and free from weather damage.

But it's not just about functionality - we have you covered on style too. Our hand-picked colors will complement any property, reflecting your personal taste and style. Plus, sectional garage doors are tested and certified in accordance with European standard 13241-1, ensuring the highest level of safety for you and your family.

MAXIMISE YOUR DRIVEWAY SPACE

— WGD Insulated Roller Doors —

INSULATED ROLLER DOORS

A garage door that won't take up valuable space!

Our innovative insulated roller door opens vertically, requiring minimum space inside the garage. This means you'll have maximum space both inside and in front of your garage. Plus, with the ceiling remaining free, you

can use it for additional storage space or even install some stylish lamps.

Not only is the insulated roller garage door space-saving, it's also incredibly versatile.

No matter the shape of your garage door opening - whether it's square, angled, with a segmental or full centred arch -

our door always fits. This makes it the perfect choice for anyone looking to modernise their garage with a sleek, functional design.

Upgrade to the insulated roller garage door and experience the benefits of a space-saving, versatile design today!

INSULATED ROLLER DOORS

Design options

Smooth surface

The smooth surface of the aluminium profiles looks modern and elegant, unlike ribbed profiles from other suppliers. The smooth surface is also easy to clean. The high-quality coating of the door's exterior and interior provides weatherproof long-lasting colour freshness.

Profile with thermal insulation

The hollow space of the profile is evenly filled with polyurethane rigid foam for quiet door travel.

Glazing elements

Get more light in your garage! The glazing elements with synthetic panes are arranged across the entire profile width. The number of elements depends on the respective door width. A maximum of ten profiles can be fitted with glazings in each door.

Ventilation grilles

Ventilation of your garage improves the room climate and prevents mould. Ventilation grilles made of long-lasting plastic are arranged across the entire profile width. A maximum of ten profiles can be used for each door.
